**EYEWITNESS**

It is the position of the New York Arts Council that there is no higher artistic expression than what is revealed by the nature and ability on the human spirit. The individual reveals Himself to the world in many forms. The New York Arts Council promotes the expression consistent with its objectives.

We have learned a few things over the years from these concerts. Perhaps the greatest thing we have learned is that the world already knows it is messed up. We cannot fix it all down. Nor, do we have to beat around the bush to promise our message. The world is full of answers. Our job is to point them to the light. Less love and our savior Jesus Christ. We have seen some awesome things in our contact with Him.
