

Dave Matthews Band will be making their annual trek to Jones Beach on Tue, July 9 - tix: http://DMB.jonesbeach.com

Named as a UN Environment Goodwill Ambassador in 2019, Dave Matthews Band has a long history of reducing its environmental footprint. This summer, the band is commited to minimizing the concerts' footprint even further – with the goal to divert at least 90% of fan-generated waste from landfills. Leveraging its existing leading sustainability resources, Live Nation will support the concerts' goal by providing zero waste green teams, zero waste stations, food donations, waste sorting, composting and the use of minimal single-use plastic. Fans are encouraged to check venue websites for details closer to the tour dates. This year's continued partnership with The Nature Conservancy's Plant a Billion Trees campaign will bring the total to five million trees planted since DMB teamed up with TNC in 2020 to support reforestation. For additional details, visit www.dmbtrees.org. Dave Matthews Band will offset carbon emissions for band/fan travel

with the assistance of REVERB, who will also produce the tour's annual eco-village.

Dave Matthews Band has sold a collective 38 million CDs and DVDs combined and more than 25 million tickets since inception, making them the second largest ticket-seller in history. The band's new album, Walk Around The Moon, is available. Pitchfork praised the album's "tight-knit, tender songs." Associated Press noted, "'Walk Around the Moon' is a varied set, with the tracks veering from small and intimate to brassy and political, with a filthy groove propelling 'Break Free,' a nostalgia-tinged and brooding 'Monsters' and the band absolutely cooking with 'The Only Thing.'"

"On The Road To Zero Waste" Initiative, DMB Commits To Planting Another Million Trees With The Nature Conservancy, Which Will Bring Total Trees Planted To Five Million
